WHO IS ETHOS LABORATORIES?

Ethos Laboratories is a CLIA certified, CAP accredited, high-complexity laboratory that specializes in COVID-19 PCR testing, COVID-19 vaccinations, pain biomarker, toxicology testing, and research and development. Ethos conducts revolutionary research into chronic disease and has been awarded funding from federal programs to develop novel diagnostic tests for challenging and rare diseases. Ethos received the first FDA EUA in the country for the SARS-CoV-2 PCR assay with MALDI-TOF in 2020, which has inclusion criteria for the use in children under the age of 18, back-to-school testing and back-to-work testing. As a partner and a true community champion, Ethos values the partnership with the Commonwealth of Kentucky and The Department of Health in order to help protect as many lives as possible by being readily accessible for our community.
